

GALAPAGOS ANGEL BRAND NEW YACHT CRUISE 5

Embark on a captivating Galapagos Islands cruise, commencing with a flight from Quito or Guayaquil to Baltra Island. Your journey unfolds with a visit to North Seymour Island, offering encounters with Galapagos sea lions, blue-footed boobies, and frigate birds. Explore the unique landscape characterized by arid vegetation and witness marine iguanas and captivating underwater life through snorkeling opportunities. The itinerary then ventures to Santiago and Bartholomew Islands, showcasing lava formations and an extinct volcano with panoramic views. Genovesa Island beckons with the white-sand Darwin Bay beach, home to diverse bird species and tidal pools. El Barranco unveils striking cliffs and avian wonders. Santiago and Rabida Islands follow, featuring the Fausto Llerena Breeding Center and the vibrantly varied Rabida Island. The tour concludes on Santa Cruz Island with a visit to the Fausto Llerena Tortoise Breeding Center. Immerse yourself in the Galapagos' unique biodiversity before bidding farewell and departing from the Baltra airport.

ITINERARY

Day 1: Sunday NORTH SEYMOUR ISLAND

In the morning: Baltra Airport Arrival

Morning flight from Quito or Guayaquil to Baltra, Galapagos Islands. You will arrive at Baltra Island in the morning. After passing through immigration and baggage claim, you will be met by a Galapagos Angel staff member and transferred to the yacht. You will be shown to your cabin where you will have some time to settle in before lunch and a welcome briefing.

In the afternoon: In the afternoon: North Seymour

In North Seymour you may see Galapagos sea lions, blue-footed boobies, and magnificent frigate birds which are abundant on

this island. North Seymour was formed by a series of submarine lava flows containing layers of sediment that were uplifted by tectonic activity. The island is characterized by its arid vegetation zone.

Day 2: Monday SANTIAGO AND BARTHOLOMEW ISLANDS
In the morning: In the morning: Chinese Hat Islet

This small islet is located near the southeast coast of Santiago Island. Its name comes from the distinct shape of the islet's summit. Chinese Islet is a great location to view many geological formations such as lava tunnels and lava flows. Some of the lava flows were formed underwater and subsequently raised above sea level. The presence of coral heads on the lava flow indicates this phenomenon.

In the afternoon: In the afternoon: Pinnacle Rock

You will head to Bartholomew Island where the famous Pinnacle Rock is found. Bartholomew consists of an extinct volcano with a variety of red, orange, black and even green volcanic formations. We will take a trail of stairs to the summit of the volcano (about 30 or 40 minutes) where you will enjoy one of the best views of the islands! You will also visit a small, beautiful beach surrounded by the only vegetation found on this barren island. The beach is perfect for snorkeling where you may even see and swim with Galapagos penguins.

Day 3: Tuesday GENOVESA ISLAND
In the morning: In the morning: Darwin Bay

Visit the white-sand coral beach of Darwin Bay which includes a half mile trail (0,75km) that winds through mangroves filled with

land birds. Nazca boobies, red-footed boobies, and swallow-tailed gulls, which can easily be spotted here. Further down the path we'll find tidal pools where sea lions swim playfully. At the end is a spectacular view of a cliff.

In the afternoon: In the afternoon: El Barranco

El Barranco, also known as Prince Phillip's Steps, is a steep, rocky path that leads up a high cliff rock face. A marvelous view can be appreciated from here. This site is also home to Palo Santo vegetation as well as red-footed boobies, short-eared owls, Galapagos storm petrels, and Galapagos doves.

Day 4: Wednesday SANTIAGO AND RABIDA ISLANDS
In the morning: Egas Port

Egas Port, also known as James Bay, on Santiago Island is home to the curious Galapagos hawks and quick-footed Galapagos lava lizards. The trail leads to the coastline with gorgeous tide pools and grottos full of fauna. Here the Galapagos furseals bathe in the sun. This is also a great snorkeling site.

In the afternoon: Rabida

You will visit Rabida Island (or Jarvis) which is one of the most colorful and volcanically varied islands in the archipelago as well as a great snorkeling site. We will start on Rabida's famous maroon/red sand beach, and after an easy hike, you will arrive to a stunning lookout to enjoy the amazing landscapes. The island is a birdwatcher's delight. Some species are abundant such as a few varieties of finches, Galapagos vermilion flycatchers, Galapagos hawks and brown pelicans.

Day 5: Thursday SANTA CRUZ ISLAND

In the morning: In the morning: Fausto Llerena Breeding Center

You will visit "Fausto Llerena" Tortoise Breeding Center in Puerto Ayora, where giant tortoises are bred in captivity. This is home to tortoises ranging from 3-inches (new hatchlings) to 4-feet long adults. Subspecies of the giant tortoises interact with one another, and many of the older tortoises are accustomed to humans stretching out their heads for a photo opportunity. The babies are kept until they are about four years-old and strong enough to survive on their own.

Afterwards: Afterwards: Baltra Airport Departure

After this final visit, you will be transferred to the Baltra airport in time for your flight back to the mainland.

Please Note:

Itineraries are subject to change.
