

SPITSBERGEN - NORTHEAST GREENLAND - AURORA BOREALIS ABOARD HONDIUS

The Spitsbergen and Northeast Greenland cruise sails waters filled with breath-taking scenery. The expedition passes through areas that are home to seals, seabirds, whales, and polar bears, topped off with nighttime viewing of the Northern Lights. The probability of sailing into Scoresbysund is high (based on our experiences from 1993 – 2019), but there is still a chance (about 10%) that ice will obstruct passage into the fjord system. All itineraries are for guidance only. Programs may vary depending on ice, weather, and wildlife conditions. Landings are subject to site availabilities, permissions, and environmental concerns per AECO regulations. Official sailing plans and landing slots are scheduled with AECO prior to the start of the season, but the expedition leader determines the final plan. Flexibility is paramount for expedition cruises. The average cruising speed of our vessel is 10.5 knots.

ITINERARY

Day 1: Largest town, biggest island

You touch down in Longyearbyen, the administrative center of Spitsbergen, the largest island of the Svalbard archipelago. Enjoy strolling around this former mining town, whose parish church and Svalbard Museum make for fascinating attractions. Though the countryside appears stark, more than a hundred species of plant have been recorded in it. In the early evening the ship sails out of Isfjorden, where you might spot the first minke whale of your voyage.

Day 2: Route to Raudfjorden

Sailing to Raudfjorden, on the north coast of Spitsbergen, you take in an expansive fjord spilling with glaciers – and maybe even visited by ringed and bearded seals. The cliffs and

info@small-cruise-ships.com

shoreline of this fjord also support thriving seabird colonies, rich vegetation, and the possibility of polar bears.

Day 3 – 4: Onward to east Greenland

You may eventually see the jagged edge of the east Greenland sea ice flashing into sight ahead, depending on the conditions. Keep watch for whales and migrating seabirds here.

Day 5: Tundra, mountains, and icebergs

As you approach Greenland, you may sail through the sea ice into Foster Bay and land at Myggebugten. Beyond the old hunters' hut (where Norwegian trappers hunted for polar bear and Arctic fox in the first half of the 20th century), there is a sprawling tundra populated by musk oxen, with geese floating the small lakes. From here you sail through Kaiser Franz Josef Fjord, surrounded by towering mountains and bright interior icebergs. An alternate route is Sofia Sound, a narrower waterway.

Day 6: The islands of Antarctic Sound

You arrive at Teufelschloss (Devil's Castle), a mountain with layered geology. On the other side of the fjord is Blomsterbugt and the intended landing site. In the afternoon you head into Antarctic Sound, where you find the islands of Ruth, Maria, and Ella. Maria is the most likely spot for a landing.

Day 7: Alpefjord's lofty peaks

In the morning you enter Segelsällskapet's Fjord, with the streaked slopes of the Berzelius Mountains bordering the north side. You land on the south shore, where ancient sedimentary formations lie right at your feet. A hike takes you near a small lake with good chances to see musk oxen, Arctic hares, and ptarmigans. In the afternoon the ship ventures into Alpefjord,

aptly named for the spire-like peaks that thrust up around it. You may then embark on a Zodiac cruise around Gully Glacier, which once blocked access to the interior of these waters. Continuing deep into the fjord, you experience a definitive Greenland adventure.

Day 8: Sights of the Arctic autumn

The first half of the day you spend in Antarctic Havn, an extensive valley where you can spot groups of musk oxen. At this time of year, the sparse vegetation is dressed in the fiery colors of autumn.

Day 9: Inuit neighborhood of yesteryear

Today you reach Scoresbysund, sailing along the glaciated Volquart Boons Kyst. You may also enjoy a Zodiac cruise past one of the glacier fronts, along with a visit to the basalt columns and ice formations of Vikingebugt. The afternoon goal is to visit Danmark Island, where you find the remains of an Inuit settlement abandoned around 200 years ago. The circular stone tent rings indicate the summer houses, while the winter houses can be seen closer to a small cape. The sites are well preserved, with easy identifiable entrances, bear-proof meat caches, and grave sites. In the evening, you continue sailing the berg-crowded fjords to the west.

Day 10: Colors of the cape

The goal is a Zodiac cruise near Røde Ø, one of the world's most cherished iceberg attractions: The austere blue-white of the icebergs sets sharp against the brooding red backdrop of the sediment slopes. The afternoon plan is to sail through the northern parts of Røde Fjord, with the chance to see musk oxen and warm autumnal foliage.

Day 11: Enormous bergs, Arctic hares

In the morning you encounter colossal icebergs, some over 100 meters (328 feet) high and more than a kilometer (.62 mile) long. Most of them are grounded, as the fjord is only about 400 meters deep (1,312 feet). You then land near Sydkap, with fine views of Hall Bredning and a good shot of seeing Arctic hares.

Day 12: Settlement at Scoresbysund

Today you make a tundra landing on Liverpool Land, in Hurry Inlet. The afternoon stop is Iltoqqortoormiit, the largest settlement in Scoresbysund at about five hundred inhabitants. At the post office you can buy stamps for your postcards, or just stroll around to see the sled dogs and drying skins of seals and musk oxen. In the afternoon you sail south, passing the picturesque landscapes of the Blossville Coast.

Day 13: Sea life under the northern lights

A sea day grants you the opportunity to spot whales and seabirds – and at night, the magical northern lights.

Day 14: Journey's end at Akureyri

Every adventure, no matter how grand, must eventually come to an end. You disembark in Akureyri, where on request you can transfer (T) by chartered bus (a six-hour drive that you must book in advance) to the Reykjavik city hall, taking home memories that will accompany you wherever your next adventure lies.

YOUR SHIP: HONDIOUS

YOUR SHIP: Hondius

VESSEL TYPE:

LENGTH:

PASSENGER CAPACITY:

BUILT/REFURBISHED:

Hondius is the first-registered Polar Class 6 vessel in the world, meeting the latest and highest Lloyd's Register demands for ice-strengthened cruise vessels. Hondius also exceeds the requirements of the Polar Code as adopted by the International Maritime Organization (IMO), allowing you to enjoy the polar regions as much as possible while impacting them as little as possible. Upon completion, Hondius will be the most flexible, advanced, innovative ice-strengthened vessel in the polar regions. It is optimized for exploratory voyages that provide you the utmost first-hand contact with the Arctic and Antarctica. Hotel comfort, expedition class Hondius offers high-quality accommodation for 176 passengers in a range of suites and cabins. The spacious 'Hondius' suite (35 square metres, 377 square feet), six grand suites with balconies (27 square metres, 291 square feet), eight junior suites (19 to 20 square metres, 205 to 215 square feet), eight superior cabins (20 to 21 square metres, 215 to 226 square feet), 11 twin deluxe cabins, (19 to 21 square metres, 205 to 226 square feet), 14 twin window cabins (12 to 14 square metres, 129 to 151 square feet) as well as 28 twin porthole cabins, two triple porthole cabins, and four quadruple porthole cabins that vary in size from 12 to 18

square metres, or 129 to 194 square feet all offer a high level of accommodation. The passenger capacity certificate for Hondius is 196 persons. One deck consists of a large observation lounge and separate lecture room, which are reserved for a wide variety of interactive workshops, exhibitions, and performances particular to Hondius. Though elegantly designed in stylish mid-century modern decor, this vessel holds true to Oceanwide's distinctive cozy and informal atmosphere. Swift & safe ship-to-shore operations It is the philosophy of Hondius' managers to keep sea time as short as possible so that they can focus instead on fast, effective access to shore and near-shore activities. To give you the maximum contact with the nature and wildlife you traveled so far to see, they employ a tough fleet of rigid-hull inflatable Zodiac boats that guarantee swift and safe landing operations for all passengers at the same time. Hondius has two separate gangways and a sheltered indoor Zodiac embarkation platform that can also be used for special outdoor activities, such as kayaking. The fast, flexible, friendly heart of the polar regions The top priority is taking advantage of every wildlife and terrain opportunity as it occurs. To keep the itineraries flexible itineraries and the response time rapid, Hondius is equipped with advanced stabilizers and two main engines capable of powering the vessel up to 15 knots. But Hondius sacrifices no warmth to achieve its keen polar edge: You will have 72 crew and staff members (including expedition and hotel staff) at your service while on board, ensuring that what little time you do spend on the ship you will spend comfortably

entertained.
